

YOUR NEW FLOOD WARNING SERVICE

Your community is at risk of flooding

71 properties are at risk of flooding in Woodborough
Check if your property is one of them

We are pleased to be able to offer residents in Woodborough a new free flood warning service from Spring 2022

Flood warnings give people valuable time to prepare for flooding – time that allows you to move yourselves, your families and precious items to safety. Flood warnings save lives and enable the emergency services to prepare and help communities.

We are working with mobile network providers to automatically register people at risk to our new free flood warning service in your area.

Join others in your area and fully register now to get the best experience:

- Flood warnings, issued when property flooding is expected
- Flood alerts, which indicate that flooding to low lying land and roads is possible
- Receive warnings and alerts by text message, recorded voice message, or email
- Warnings and alerts about more than one location, eg your workplace or holiday location.

Check if your community has a flood group. If not, consider getting together with neighbours, or a local community group to help each other in a flood or other emergency and complete a community flood plan. Search [flood plan guidance for communities and groups](#) on GOV.UK.

Working together as a community or group to complete a plan will help you respond quickly when flooding happens. It can help you decide what practical actions to take before and during a flood, helping reduce the damage flooding can cause.

For further information and how to sign up for flood warnings

For more information on how to prepare for flooding and our Flood Warning Service please visit our website www.gov.uk/flood or call our Floodline on 0345 988 1188. See enclosed service fact sheet.

Prepare, act, survive!

Be prepared and know what to do when you receive a flood warning - use this 3 point plan.
